Safeguarding Statement

At EmpowerEd Education, we are committed to promoting the highest standards of data protection, digital safety, and ethical practice in education technology.

While we do not provide tuition services directly, nor do we employ tutors or teachers, we recognise that our platform is used by schools, educators, parents, and learners — including children and vulnerable young people. As such, we take our indirect safeguarding responsibilities seriously.

We do not engage in any direct teaching or supervision of students. We provide a secure, GDPR-compliant platform that supports the safe management of education data, including EHCPs and student progress records. All employees, contractors, or service providers who have access to personal or sensitive data (e.g., platform engineers, data support) are subject to: - Enhanced background checks where appropriate - Safeguarding and data protection training - Strict confidentiality and access protocols

We do not host user-generated content or messaging intended for children or students.

Safeguarding is the responsibility of the schools, educators, and organisations that use our platform. We actively support our clients in upholding their own safeguarding duties by: - Enabling secure document sharing and user permissions - Offering features that support data visibility, audit trails, and reporting - Responding swiftly to any concerns about inappropriate access or data misuse

More detailed safeguarding or data protection policies are available upon request. Please contact us at info@empowered-education.co.uk.
